Application as a registered nurse, a made-up vacancy

Noor El Amrani is a made-up registered nurse. This letter belongs to nobody, the vacancy is invented, and it does not give clinical advice.

Dear hiring team,

The ward, then the shift

I put the registration on the first lines and the work under it. At Example Medical Ward, which exists only in this letter, the list was admissions, a night handover, and a day clinic twice a week.

When the team is short

On a made-up Sunday I was the charge nurse. The example is only here to show a shift line. It is not clinical advice.

Admissions, beds and a night handover on one list.
A day clinic twice a week.
A Sunday charge when the team was short.
